

A New World Opens Up – Macro Photography By: Steve Gettle

When: Monday August 3rd at 6:00 PM EST

Space is limited - pre-registration required: [Click here to register](#)

A New World Opens Up – Macro Photography

In this talk Steve will speak about how to use basic equipment to make beautiful images of things in the realm of the small: from the size of a butterfly to as small as a tiny flower. He will cover the specific equipment needed for this type of photography. He will also discuss the specialized techniques used in this challenging genre of nature photography such as maximizing depth of field, controlling light, controlling the background, and using flash. This program has a special emphasis on working macro subjects in the field.

About Us

Steve and Nicole lead nature photography tours to exciting destinations around the world. They enjoy sharing their knowledge of the natural world and helping people capture amazing images of our planet. Steve has over 30 years of nature photography experience and has been recognized through numerous awards. These include being a multi-award winner of the BBC's Wildlife Photographer of the Year and recognized in the prestigious Nature's Best photography contest. His images are often featured in National Geographic and other nation-wide publications. Nicole has over 15 years of nature photography experience and enjoys discovering and sharing wild connections with others.
